## *Parent2Parent Coffee*

---

We would love to welcome you to our parent-to-parent coffee! This informal gathering allows us as parents of transgender, gender nonconforming and gender questioning children to connect. This is a parent run event, open only to parents and direct caregivers of these children. We respect each other's confidentiality and the fact that we may be in different stages of this journey. We all have felt very alone and confused at times, and have found that connecting with other parents of gender nonconforming children to be a great relief. Join us at one of our locations whether you would like to share your story or just hear ours, we would love to meet you!

\*Please email the contact person in your area for location details. Parents are free to come for all or just a portion of the time that we have the private room booked. These are not PFLAG sponsored meetings.
